

Introducing VR Daigaku

VR Daigaku (“VR University”; “VR大学”) is a website for prospective students to explore universities in Japan with various contents.

In this website, users can:

- ① gather information from websites
- ② virtually “be” on the campus with 360 VR tours
- ③ discuss anything about universities in VR chatrooms (and forum)

Therefore, we would like this website to:

- introduces our service (VR Daigaku)
- showcases universities in Japan (website, virtual tour, VR chatroom, and perhaps forum)

What's in the website?

- ① Home Page
- ② Get Cardboard Page
- ③ About Page
- ④ Pop-up Landing Page
- ⑤ (Forum Page)

General requirement and Things to discuss:

Requirement ①: Language

We want the website to be bilingual: English and Japanese, so that both prospective students in Japan and other countries can access to it

Question ①: Forum

As you may noticed, I always mention forum in bracket in this pdf, as I’m planning to create a forum for students to communicate in here too.

I know it’s not written in your gigs, but are you able to create a forum on the website too? If not, I’m probably gonna find someone to just create it for me after this project is finished.

Details about Each Page

① Home Page

a. Description:

I. User can explore for the universities that they want to visit by scrolling horizontally.

II. User can specifically search for the universities with search bar and filter.

III. There are various types of content for each universities:

- i website
- ii VR tour
- iii VR chatroom
- (iv forum)

IV. Before users can access the content of the universities, it is necessary for users to signup / login.

V. After logging-in, users can access to all of the content

VI. Users can save particular universities with *likes*

b. things want to be added:

I. **Search bar** : once a keyword is entered, only the relevant universities would appear

II. **Category filter**: I still haven't finished all of the categories, so I'll send you asap when I'm done with it.

III. **likes**: when a university is liked, the like school will be added to the list in user's account

IV. **UI animation 1** : as I've already mentioned at the start of the chat, I want to create the effect for showcasing the list of universities.

V. **UI animation 2** : It would be great if 3D card effect can be added to all the icons at the bottom of the page.

VI. **Pop-up landing page**: when user click on any of the universities

c. few possible changes:

I. regarding the images of the universities, I might do background removal, colouring, and reframing for all the images. In hoping to achieve the similar visual effects in the reference example.

II. in ①–2, depending whether the outcome is aesthetically-pleasing or not, the layout within the orange box could be changed

III. also in ①–2, maybe there would be a icon for forum too

② Get Cardboard Page

a. Description:

I. Users can enter and submit details in the contact form

II. All the submitted details are stored in somewhere that admin can have access to.

b. things want to be added:

I. contact form

(II. animation) : if the website at the end is not too memory consuming, it is preferable to add some sort of animation to spice it up a bit.

c. few possible changes:

If you think there's a better way to display the content, please feel free to change the layout

③ About Page

a. Description:

- I. Users can read the description about this service
- II. Users can leave a comment by filling out the space and submit it to admin.

b. things want to be added:

- I. contact form

c. few possible changes:

I'm not quite satisfied with the current layout of this page, so similarly, if you think there's a better way to display the content, please feel free to change the layout

④ Pop-up Landing Page

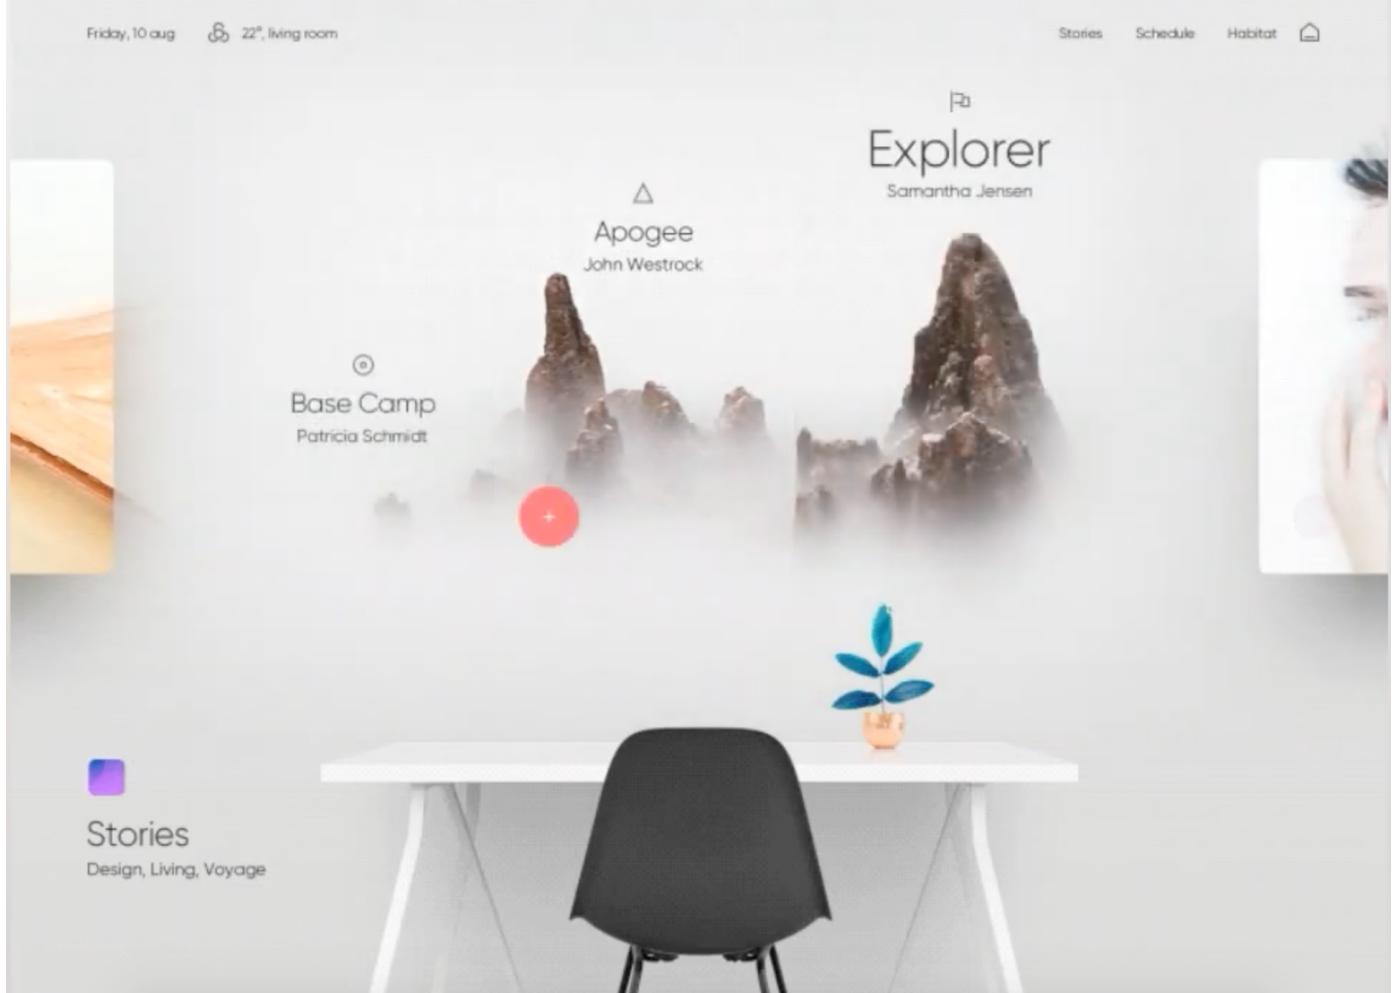

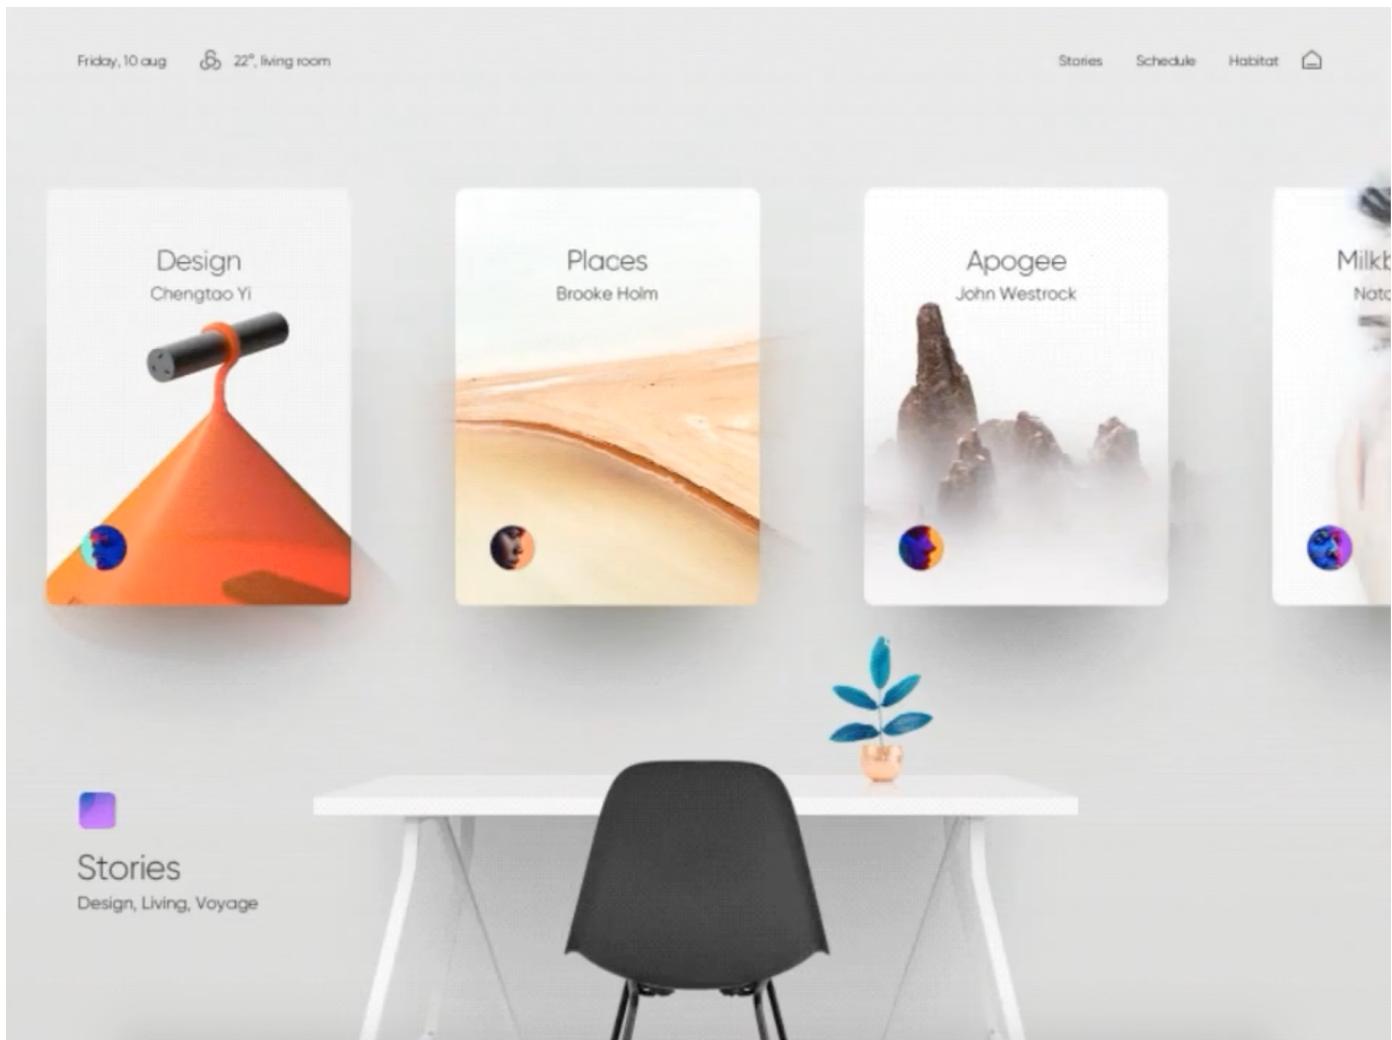

a. Description:

- I. This page will appear when users have not yet signed up/ logged in AND:
 - i. click on the "login" button on the top right corner
 - ii. click on any content of universities
 - iii. access to Get Cardboard Page
- II. Users can signup / log in with either Google account, Facebook account, or email account.

c. few possible changes:

- I. The graphics will be changed, so I'm going to inform you when I have found a suitable one.
- II. Again, if you think there's a better way to display the content, please feel free to change the layout

Reference:

①–1 Home Page

The screenshot shows the homepage of the EMPTY PLATFORM website. At the top, there is a navigation bar with links for "Get Cardboard", "Explore", "About", "日本語" (Japanese), and a "Login" button. Below the navigation is a search bar with the placeholder "Enter a University" and a filter icon. The main content area displays four cards, each representing a university with a thumbnail image and the university's name. The cards are: International Christian University (a modern building), Waseda University (a red brick tower), Tokyo University (a large Gothic-style building), and Hitotsubashi University (a red brick building). Below these cards is a slogan: "Perfect School, Perfect You." At the bottom, there are social media sharing icons for VR, Instagram, Facebook, YouTube, and Twitter.

①–2 Home Page (when a university is clicked)

This screenshot shows the same homepage as above, but it has zoomed into the Tokyo University card. A dashed orange rectangle highlights the "Uni's Profile Pic with No Background" section, which contains a thumbnail image of the university's profile picture. The rest of the interface remains the same, with the navigation bar, search/filter, and social sharing icons visible.
